## Get Your TCA Skin Peel Today

A skin peel exposes a new fresh layer of skin with a more even color and a smoother texture. In addition, the peel stimulates new cells to grow, thereby tightening the skin, which decreases wrinkling.

Chemical Peels are consistent and affordable. If you aren't getting your peels regularly then you are doing your skin a disservice. Whether yearly 4-5 light peels at every 2-4 week intervals or 1-2 medium concentration TCA peels, your skin needs them. Look younger, more vivacious and impress people with your looks.

*Growing older is mandatory, Growing old looking is optional.*

**Everybody Needs A TCA Peel Yearly!** Why Spend A Lot On Unpredictable Laser Treatments When Chemical Peels Are More Cost Effective and Predictable!

## Mini-Lifts — Ask Dr. Hansen TODAY!

A Mini-Lift can make patients look up to 10 years younger in a few hours with very little down time and done under local tumescent anesthesia. The Mini-Lift provides an overall lift to the lower third of your face by tightening loose skin in the jowls, neck and jawline. Soft tissue is gently lifted and tightened with the

excess skin being removed through an incision along the ear and behind the earlobe. Results may be further enhanced with facial and neck liposuction and subsequent chemical peels to smooth wrinkles and remove discolorations.

*Ask Dr. Hansen if a Mini-Lift is right for you!*

## **THE DOT** Finally someone has cleared this up.

For centuries, Hindu women have worn a dot on their foreheads. Most of us have naively thought this was connected with tradition or religion, but the Indian embassy in Ottawa has recently revealed the true story.

When a Hindu woman gets married, she brings a dowry into the union. On her wedding night, the husband scratches off the dot to see whether he has won a convenience store, a gas station, a donut shop, a taxi cab, or a motel in the United States.

If nothing is there, he must remain in India to answer telephones and provide us with Verizon technical support.

## *Arm Tucks!*

Get rid of flabby arms  
waving in the WIND.  
Dr. Hansen liposuctions all  
the way around the arms  
and then excises the excess  
skin and hides  
the incision in the armpits.

All under  
tumescet local.  
Faster, easier recovery  
and less downtime.

# Feel Better About Yourself!

## Look More Confident!

Dr. Hansen is truly an artist when it comes to liposculpture.

The safe new microcanula tumescent techniques have made this one of the most rewarding procedures in the country.

Get rid of those nasty bulging thighs, protruding abdomen, double chins and jowls, unsightly love handles and hips, buttocks, knees, arms, chests, calves and even ankles.

## Local Anesthesia Only! NO General Anesthesia needed.

Dr. Hansen does not do Laser Liposuctions because results from other docs have been disappointing and more risky since we are seeing patients coming in with a lot of dimpling, puckering and burns. This is why they are cheaper now and for good reason.

## Who Says Men Don't Remember!

A COUPLE were Christmas shopping. The shopping centre was packed and as the wife walked around she was surprised to discover that her husband was nowhere to be seen. She was quite upset because they had a lot to do and hence, she became so worried that she called him on her mobile phone to ask him where he was.

In a quiet voice he said: "Do you remember the jewelers we went into about five years ago, where you fell in love with that diamond necklace that we couldn't afford, and I told you that I would get it for you one day?"

The wife choked up and started to cry and said: "Yes, I do remember that shop."

He replied: "Well, I'm in the pub next door!"
