DESIGNER
Mini-Lifts

*Advanced Mini Lifts
Under Local*

Turn back the hands of time and look refreshed, healthier.

Show the world the new natural looking, fabulous, more confident you. Feel good about yourself and invest in yourself.

Major Benefits:

- No risky general anesthesia
- Faster recovery with less bruising and swelling
- Very Affordable

A Mini-Lift can make patients look up to 10 years younger in a few hours with very little down time and done under local tumescent anesthesia. The Mini-Lift provides an overall lift to the lower third of your face by tightening loose skin and muscle along the jowls, neck and jawline. Soft tissue is gently lifted and tightened with the excess skin being removed through an incision inconspicuously hidden along the ear and behind the earlobe. Results may be further enhanced with facial and neck liposuction and subsequent chemical peels, botox and fillers to smooth wrinkles and remove discolorations. *Do it today!*

In today's fast-paced, competitive society, looks are more important than ever. Dr. Hansen can make your face and neck look as young as you feel.

“Dr. Hansen is one of the most caring, innovative and cutting-edge surgeons you can find anywhere.”

“Trust your face to the expert.”
